Inspection Report

Minerals Regulatory Program

October 26, 2010

Reviewed:

Mine Name: Italian Tan
Operator Name: Quality Building Stone

Permit number: S/007/0038
Inspection Date: October 21, 2010
Time: About 8:30 – 9:30 AM

Inspector(s): Wayne Western
Other Participants: Steve Miller
Mine Status: Inactive

Weather: Clear, 60's

Elements of Inspection	Evaluated	Comment	Enforcement
1. Permits, Revisions, Transfer, Bonds, Permit Fees	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Public Safety (shafts, adits, trash, signs, highwalls)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Protection of Drainages / Erosion Control	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Deleterious Material	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. Roads (maintenance, surfacing, dust control, safety)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. Concurrent Reclamation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7. Backfilling/Grading (trenches, pits, roads, highwalls, shafts, drill holes)	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Soils	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9. Revegetation	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10. Other	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Purpose of Inspection:

The Division met with the Permittee to discuss what would be needed to complete reclamation at the site. The Division's main concerns were that additional earthwork must be done to control erosion and the reclaimed areas should be reseeded.

Inspection Summary:

1. Permits, Revisions, Transfer, Bonds, Permit Fees

The Division holds a reclamation surety in the form of a letter of credit and in the amount of \$12,500.00. Permit fees are current through 2010.

7. Backfilling/Grading (trenches, pits, roads, highwalls, shafts, drill holes)

At the request of the land owner, Utah Railway, the Operator received approval to leave a road to the top of the hill. The road and other disturbed areas need to be stabilized to prevent erosion.

9. Revegetation

Most of the vegetation in the disturbed areas consists of weeds, but there are a few perennials.

Conclusions and Recommendations:

The Division should follow up with an inspection on the site after the Operator finishes earthwork.
